📄 PROFESSIONAL SUMMARY

Motivated Computer Science and Engineering student passionate about building responsive, user-centric web applications using React.js, Tailwind CSS, JavaScript, HTML, and CSS. Currently expanding backend expertise in RESTful APIs, authentication, and scalable server-side development to create secure, full-stack solutions.

🎓 EDUCATION

Bachelor of Technology in Computer Science and Engineering, 09/2023 – 07/2027
Gokaraju Rangaraju Institute of Engineering and Technology Hyderabad, Telangana

- Current CGPA: **8.64**

💼 PROFESSIONAL EXPERIENCE

Front-End Development Intern, CODEXINTERN 09/2025 – 10/2025 Remote

- Developed an **AI-powered text translator application** using **React.js** and **Tailwind CSS**, enabling real-time multilingual text conversion via **RapidAPI** integration.
- Built a **React-based random string generator** leveraging **useState**, **useEffect**, and **useCallback** hooks to enhance component reusability and state management efficiency.
- Implemented **client-side routing** using **react-router-dom**, ensuring seamless page navigation and an optimized single-page application (SPA) experience.

🧠 TECHNICAL SKILLS

Languages C, C++, Python, Java, JavaScript	Technologies/Frameworks NodeJs, ReactJs, HTML, CSS, Tailwind CSS
Database SQL, MySQL, Postgre SQL	Others Github, REST APIs, API Integration, UI/UX, Figma, Spline

📁 PROJECTS

Fully Responsive Food Delivery Web Application, (React.JS, Node.JS, Tailwind CSS) 🌐

- Engineered a **mobile-first food delivery platform** ensuring seamless cross-device responsiveness and accessibility using **React.js** and **Tailwind CSS**.
- Implemented **dynamic restaurant and menu rendering** through RESTful API integration, enabling real-time data fetching and state management with **React Hooks**.
- Developed **customizable order management and live order-tracking features**, enhancing user experience and reducing navigation latency by 35%.
- Optimized performance and scalability by modularizing components, achieving a **PageSpeed score of 90+** across devices.

★ ACHIEVEMENTS

Volunteer — SPARC (Scientific Program for Academic Research Club), SPARC Foundation 2023 – 2024
Hyderabad, Telangana

- Selected as a **volunteer and research contributor** for the **Scientific Program for Academic Research Club (SPARC)**, a global initiative fostering innovation and scientific awareness.
- Collaborating with peers to **ideate, research, and implement technology-driven projects** aimed at advancing academic and scientific development.

Hacktoberfest 2025 — Supercontributor Badge, 09/2025 – 10/2025 Remote
DigitalOcean & GitHub | Open Source Contribution Program 🌐

- Earned the **Supercontributor distinction** by achieving **6+ accepted Pull Requests (PRs/MRs)** across open-source repositories under Hacktoberfest 2025.
- Ranked among the **top 10,000 contributors worldwide**, receiving official recognition and merchandise from DigitalOcean.
